This week in art with Ms. Losen!

This week in art students began a filmmaking module, beginning with cinematography. Students learned about camera movements, shots, and framing. They analyzed film clips and identified multiple shots such as: wide, medium, close-up, over the shoulder and camera movements such as: tracking, zoom, pan, and tilt. Next, students had the opportunity to practice creating smooth, identifiable shots and camera movements themselves and we ended the week by watching and analyzing each others' footage.
